THE LATE BILL

The late bill in relation to the Stewart property, by which Congress authorizes the appointment of a trustee to dispose of the property, has called forth the most virulent abuse of the press and the public. Mr. Stewart, it is said, is one of the richest men in the country, and the bill was passed for the purpose of enabling his widow to keep the property in the family. The bill was opposed by Senator Morton, who declared that Mr. Stewart had made his money by speculating in gold during the war, and that he was a public enemy. Mr. Stewart's widow has written a letter to Senator Morton, in which she says that her husband was a patriot, and that he made his money by honest means. She also says that he was a liberal contributor to the Union cause during the war, and that he was a public benefactor

BRIEF NOTES.

School tax this year two mills on the dollar.

Only a few cases disposed of in police court yesterday morning.

The most chronic grumbler could not pick a quarrel with the bland clerk of the weather yesterday.

Mr Barnard informs the Post that steamers are regularly and poll taxes are coming in with a quiet briskness.

The salmon will commence to run in vast numbers in a short time, and the fishermen will be "up to their eyes" in work.

Mit Nicolson, who was well known over the Portland post, was shot and killed a few days ago at a saloon in Prescott, Arizona.

The west side train was ditched yesterday morning near Cornelius and in consequence of the delay it did not arrive here until after 10 o'clock.

The steamer *Emma Hayward* was placed on the beach at Astoria last Saturday and had some repairs made to her bow. She reached Portland Sunday morning and took her place yesterday on the route.

MR. O. C. CRICH yesterday while attempting to leap on the Stark street ferryboat after she had receded several yards from the edge of the pontoon, had his left ankle sprained in a very painful manner, and had to be conveyed home in a wagon.

FOR some days past a flock of strange birds have been flying about in the upper portion of the city. The birds are quite small about the size of the bullfinch, and closely resemble that species. A number of persons have endeavored to catch these birds but all efforts so far made have proved unsuccessful.

IN addition to the $4 000 offered by the Fair trotting and running races during the coming ... next week, the committee offer a $500 purse ... for a trotting match, to be competed for by ... horses owned in Oregon, Idaho or Washington Territory, up to April 14th that have ... never beaten 2 45. The trotting match will ... come off on the 6th of July.

ON the occasion of the farewell discourse delivered last Sunday evening at the Unitarian church by Rev. Mr. Eliot to his congregation there were 17 children presented for the ordinance of baptism and 5 new members added to the church. The church was appropriately decorated in honor of the returning pastor and the services were unusually interesting and beautiful.

A DESERVED COMPLIMENT.

At a recent meeting of the Lownsdale School Library Association the following preamble and resolutions were unanimously adopted:

WHEREAS Our esteemed friend, C. H. Lewis, Superintendent of Public Instruction of this State, has served the people of this State for four years, discharged the duties of the office with fidelity and has by his able and efficient ... performed a work which will ... enduringly stamp the standard of his ... character and commend him to the ... gratitude of our entire and common country; therefore

Resolved, That we, the trustees of the Lownsdale Portland public schools, express to Mr. Lewis for the valuable assistance in perfecting our system of schools, and in all that ... work.

Resolved, That the secretary be instructed to furnish Mr. Lewis with a copy of the DAILY OREGONIAN, *Evening Journal* and a copy of the ... resolutions, with our kind regards and best wishes for his success and welfare in ... position of State Superintendent of Public Instruction.

AQUATIC SPORTS CENTENNIAL REGATTA

Among the many attractive features connected with the Centennial Celebration in this city next month these aquatic sports which have been talked about until they have become almost a household word, will be one of the most interesting. The Committee of Arrangements have decided to offer liberal premiums in the shape of medals to successful competitors in these sports, and extend an invitation to all lovers of aquatic sport at Victoria on the Sound and elsewhere to visit Portland during the celebration week, to bring along their boats and participate.

It has been proposed and the suggestion has received considerable attention that the business community come to an agreement not to receive trade dollars for more than 90c apiece. The movement seems actually to have been commenced among the retail grocers and butchers. We have heard of several instances to-day where these tradesmen have refused to receive them for more than 90. If this movement becomes general it will stop the coinage of them as their bullion value is [illegible]

The Crop Prospects

The last reports from different parts of this valley indicate a rather better prospect for the next wheat crop than earlier rumors led us to believe existed. In those counties where a greater portion of the land is rolling as Yamhill and Polk counties, and portions of Marion and Benton a large area is planted and in nearly all instances it looks well. The farmers in Yamhill and Polk say the yield in the two counties will be larger than last year. In the great wheat growing counties of Linn, Lane and Marion but the season been more favorable the acreage planted would have been unusually large as the farmers had brought into cultivation considerable new land with the expectation of sowing it. As it is some of this land has been seeded and more will be but it cannot be doubted that in the counties last named the area now sown is below what it was at a corresponding date last year. A few more days remain in which spring sowing can be done with reasonable hope of a good crop and farmers are disposed to take the most advantage possible of all intervals between showers and get in as large an area as they can. The fall sowed grain is regarded as the only No 1 in other States, but in Oregon much of the spring wheat is unexcelled in quality and yield. Some of the finest specimens of this cereal forwarded from our State to the Centennial, were from seed sown in April last year.

Tonnage.

The surplus wheat and flour in our State is generally admitted to be about 18 000 or 20 000 tons. It is a question to know whether we are likely to have tonnage sufficient to carry it away before harvest. There is now no probability that foreign bound vessels to anything like the requisite number to float this surplus will arrive here before harvest but the coasting trade from San Francisco to this point being heavy down freights have declined to a very low figure and we may expect quite a large increase in the shipment of wheat to San Francisco for re-shipment thence to England. A coaster is now loading here for San Francisco at the above rate and at the low rate of $2 50 per ton.

Transactions in the freight and charter business in San Francisco are reported light with no new features of importance to note. Wheat charters are quotable at the close at £2 3s 6d for wooden and £2 5s for iron ves ls. The dullness in coal business continues. The list of vessels now in that port who received heavy accessions recently and the aggregate tonnage will now approximate 150 000 tons. There are various rumors of charters having been effected for July to November loading but thus far there is nothing definite on that point. There are now 9 922 tons engaged who at tonnage in that port 5 604 miscellaneous and 19 622 disengaged.

The Thomas Hike and Chilcoe are the only vessels here now to load the Ann Millicent and Zephyrus having about finished. The river Lune is shortly expected for flour and two or three vessels from foreign ports are nearly or quite due.
